**8 MILLONES DE TONELADAS**

An underwater photograph showing a large, tangled fishing net. The net is made of a dark material, possibly nylon or plastic, and is heavily entangled with seaweed and other marine life. The water is a deep blue-green color. On the right side of the image, a person's hand is visible, holding a section of the net. The overall scene suggests a large-scale fishing operation or a significant amount of discarded fishing gear.

# NEXT STEPS

An aerial photograph of a coastline, showing a series of white sand beaches and turquoise water. The water is a vibrant teal color, and the beaches are a bright white. The coastline is irregular, with many small inlets and peninsulas. The overall scene is a beautiful, natural landscape.
